Hospitality is one of the symbol-values of Feudi di San Gregorio.

The estate rises on the irpinian vineyards, the soft hills of a territory which is known for centuries thanks to the authentic essences, colors, and the embracing green: Feudi di San Gregorio is a pure place where nature mixes with the authenticity of ancient traditions in a perfect and natural balance, echoing the native folk.

For us, The Winery is something more than a simple wine house: it is a place where knowledge, tradition, passion, and the link with our land are deeply lived. We always transmit them proudly to all our guests.

Several proposals are waiting for anyone who wants to visit the Winery or let be guided into a wine tasting and our local products.

A multi-sensorial experience, through the intense fragrance

of our herbal garden, roses, fruit trees and our Barrique cellar. A wonderful path that leads all visitors inside the lifecycle of the grape.

You are going to live all the working and aging phases, through an exciting path which ends with the Wine Tasting.

ACT TO BECOME!

Act to Become is not the mere proposition you find engraved upon the wooden barriques: it is a true philosophy.
