SLEEPING SURROUNDED BY THE VINEYARDS: AN UNIQUE EXPERIENCE!

The property stands upon the wonderful irpinian hills, an area famous for the alternate vineyards, the beautiful fruit trees and the colourful landscapes.

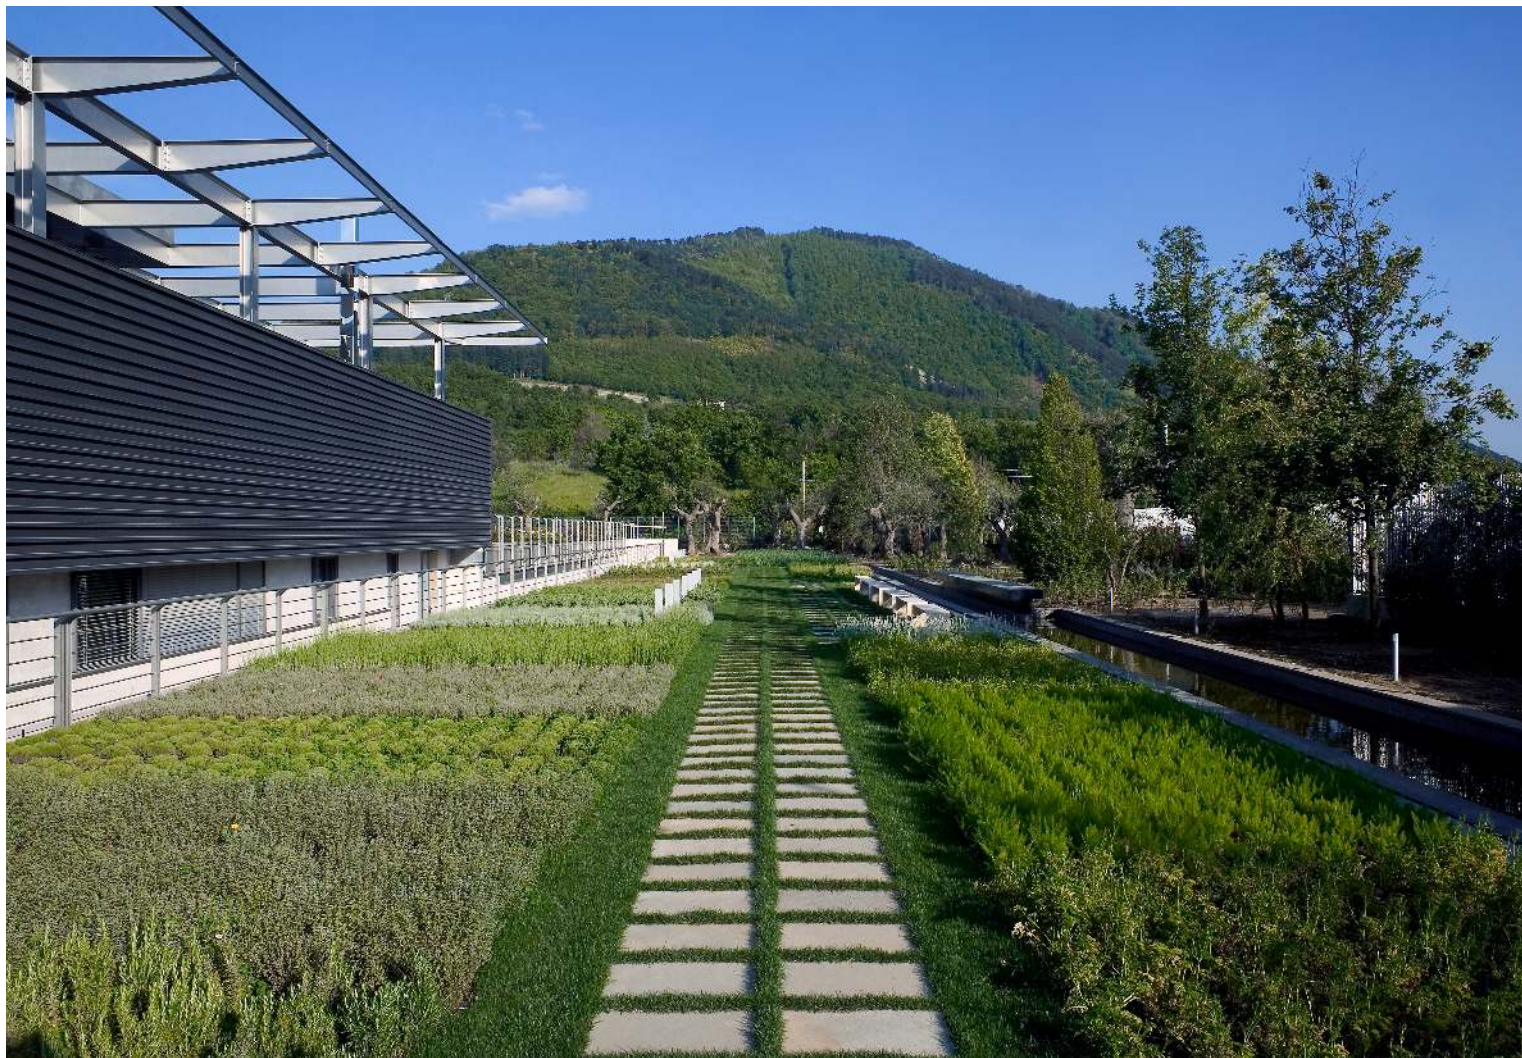

The architectonic style moves from traditional to innovative and a high-quality design, Japanese Architect Hikaru Mori. In the specific: the external design is modern, as well as the interns. the barrique cellar demonstrates its classical style, celebrating a temporal and linear space between past and future.

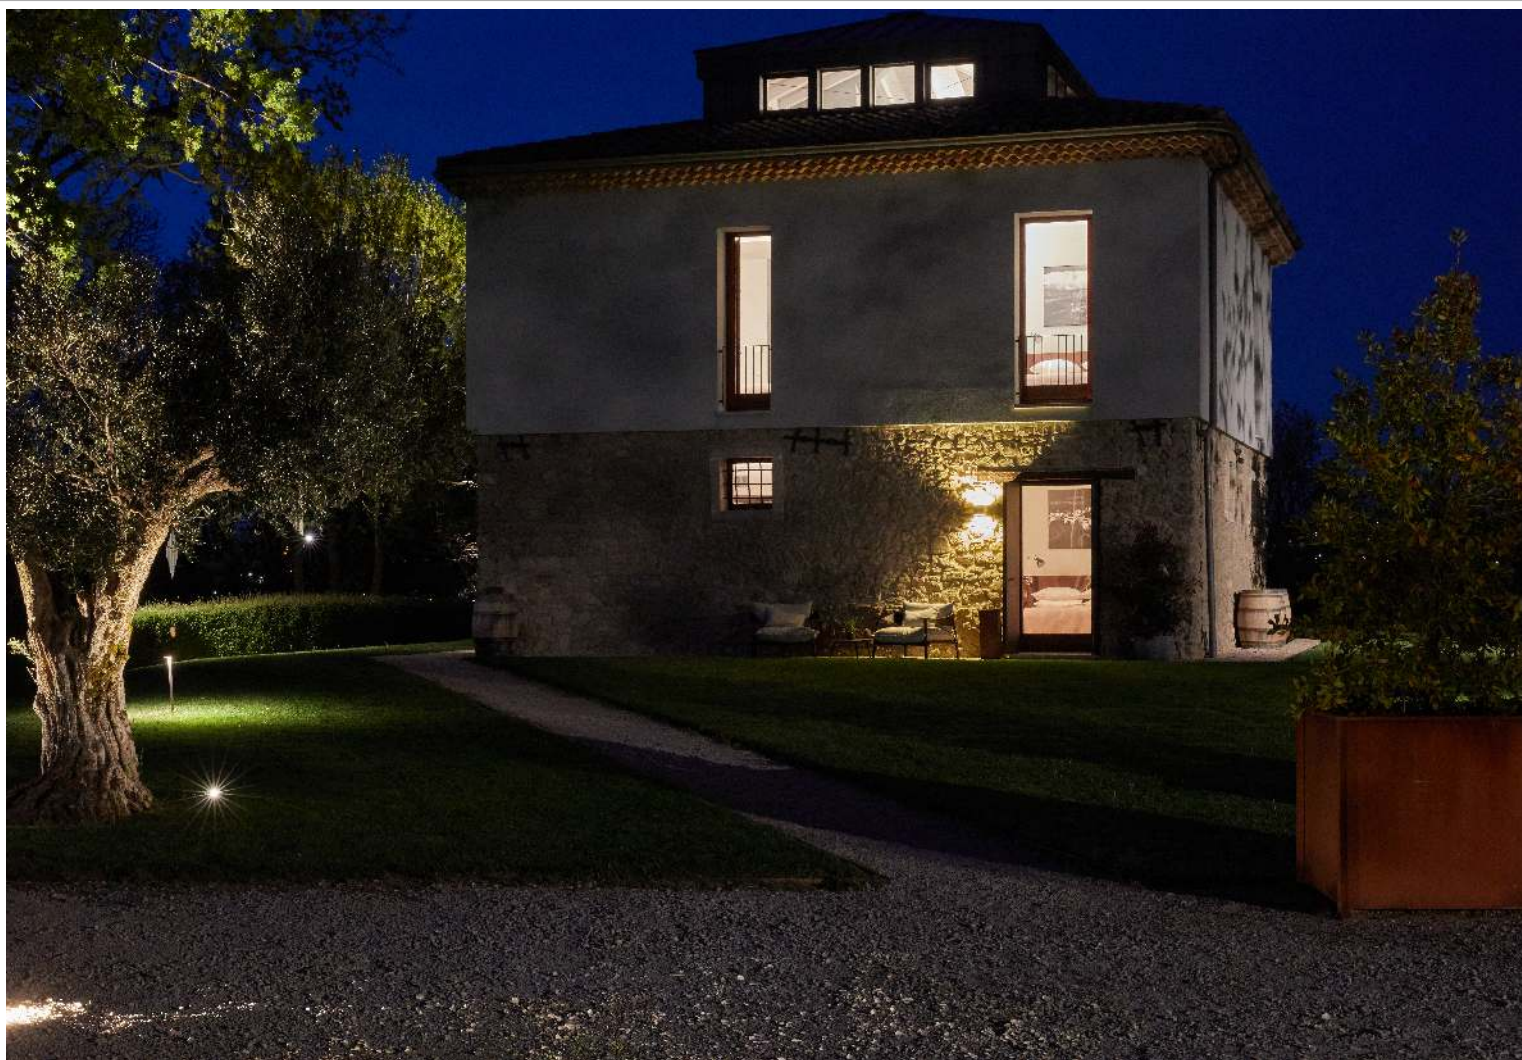

Marennà restaurant is totally in contact with modernity and traditionality, above all we mention the wooden interior decorations, the skin sofas; the play of lights and finally, the kitchen that overlooks the vineyards.

The Foresteria "Country House" is surrounded by a green area that is visible from all rooms' balcony; the internal perspective of the rooms is very aesthetic and rich of wooden elements (from the walls' colours to the bathrooms).

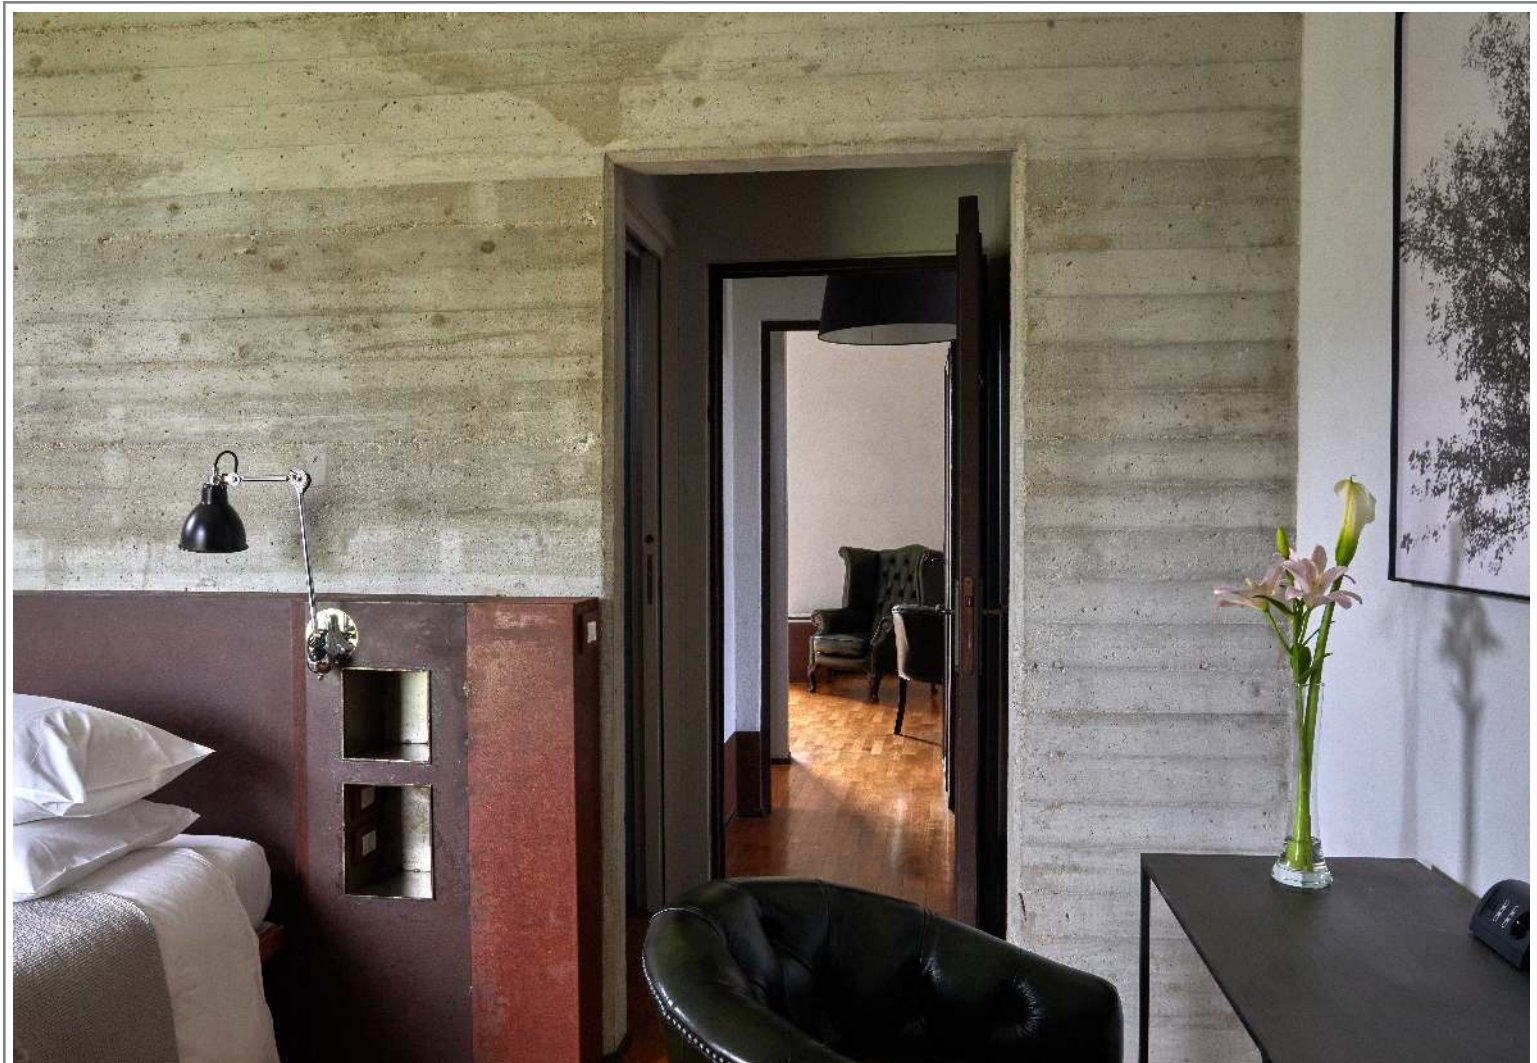

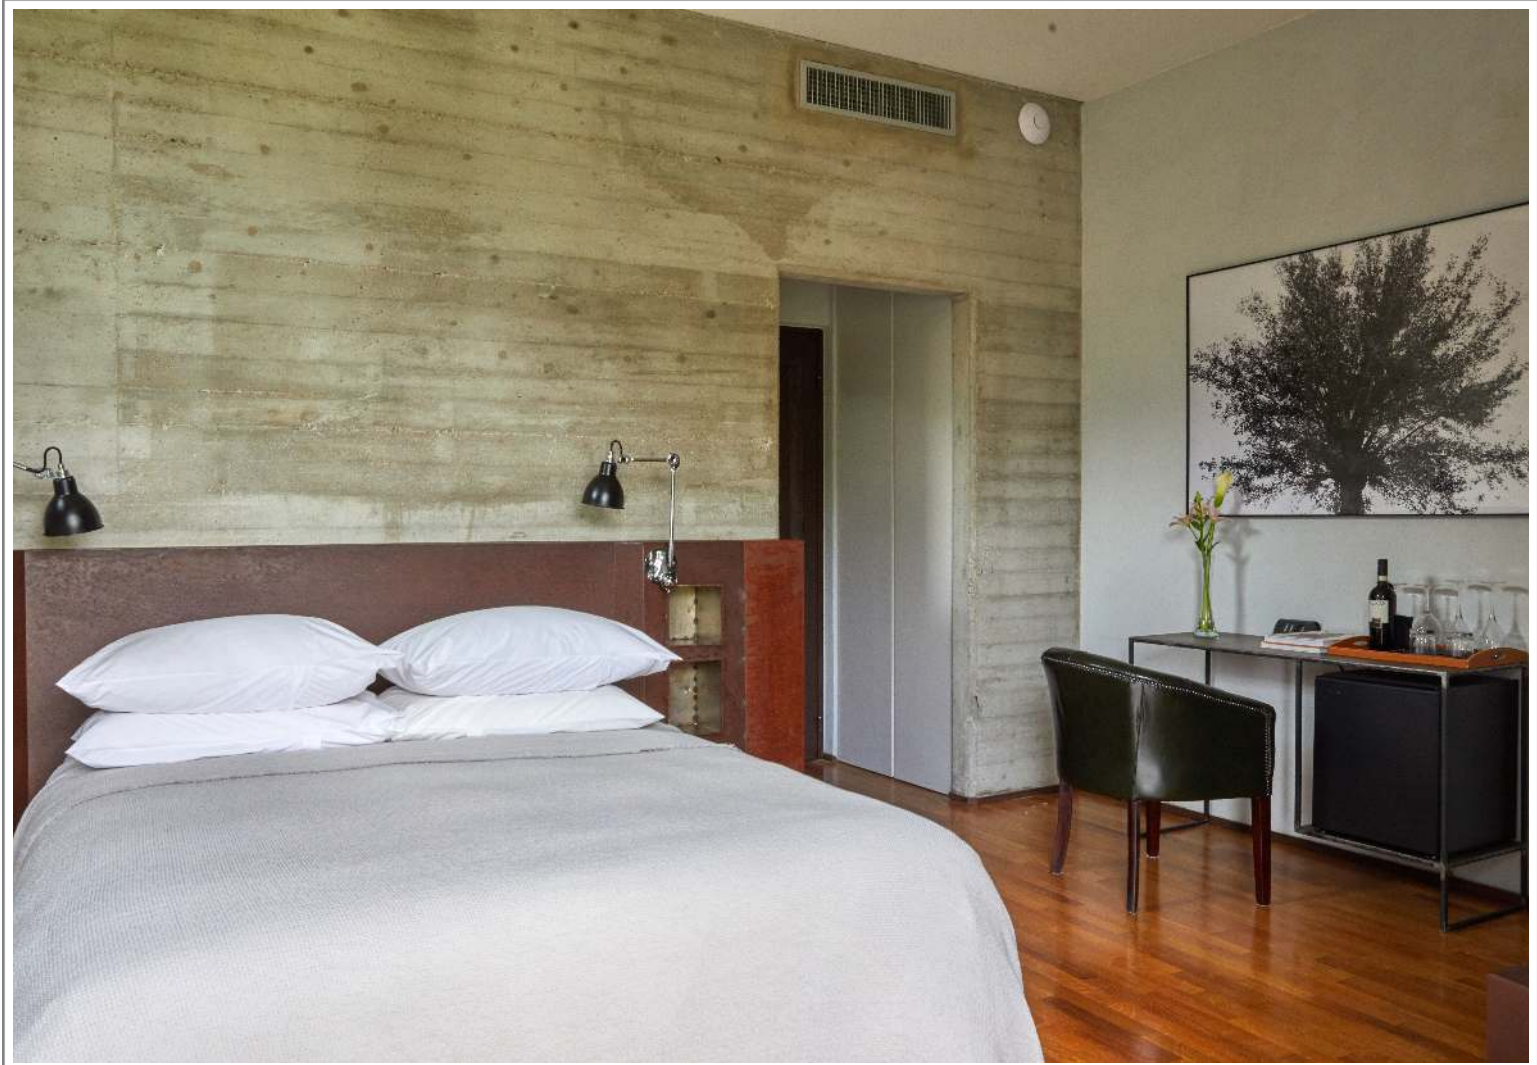

ENJOY THE MOST EXCLUSIVE EXPERIENCE IN THE COLORFUL IRPINIA!

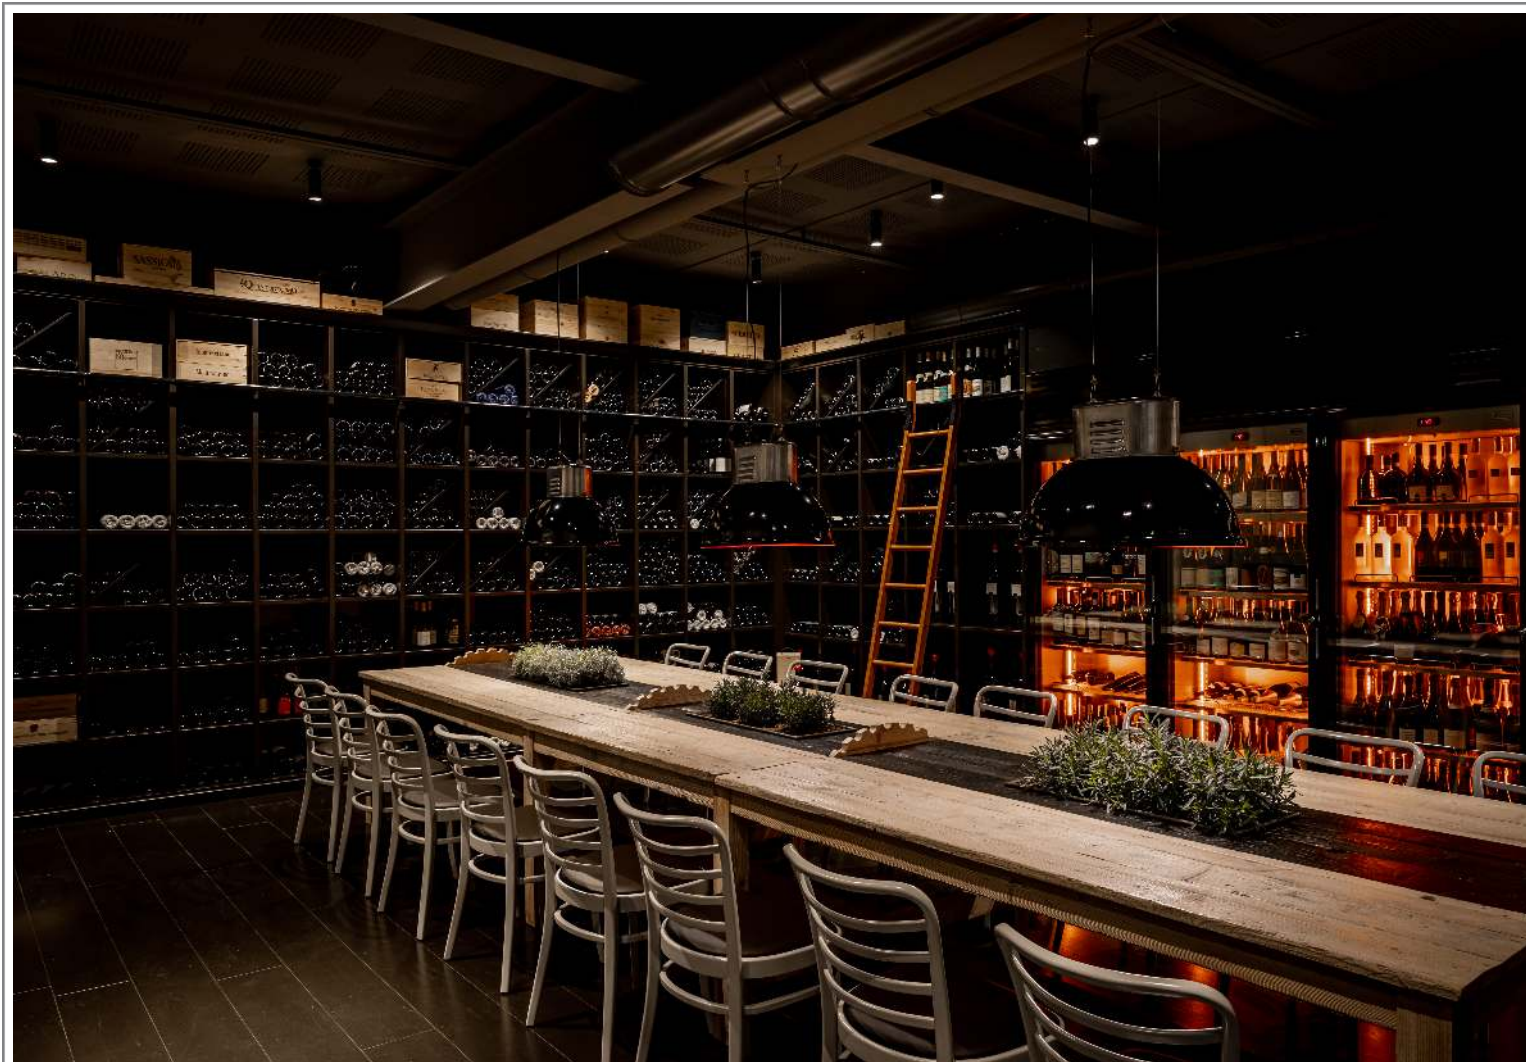

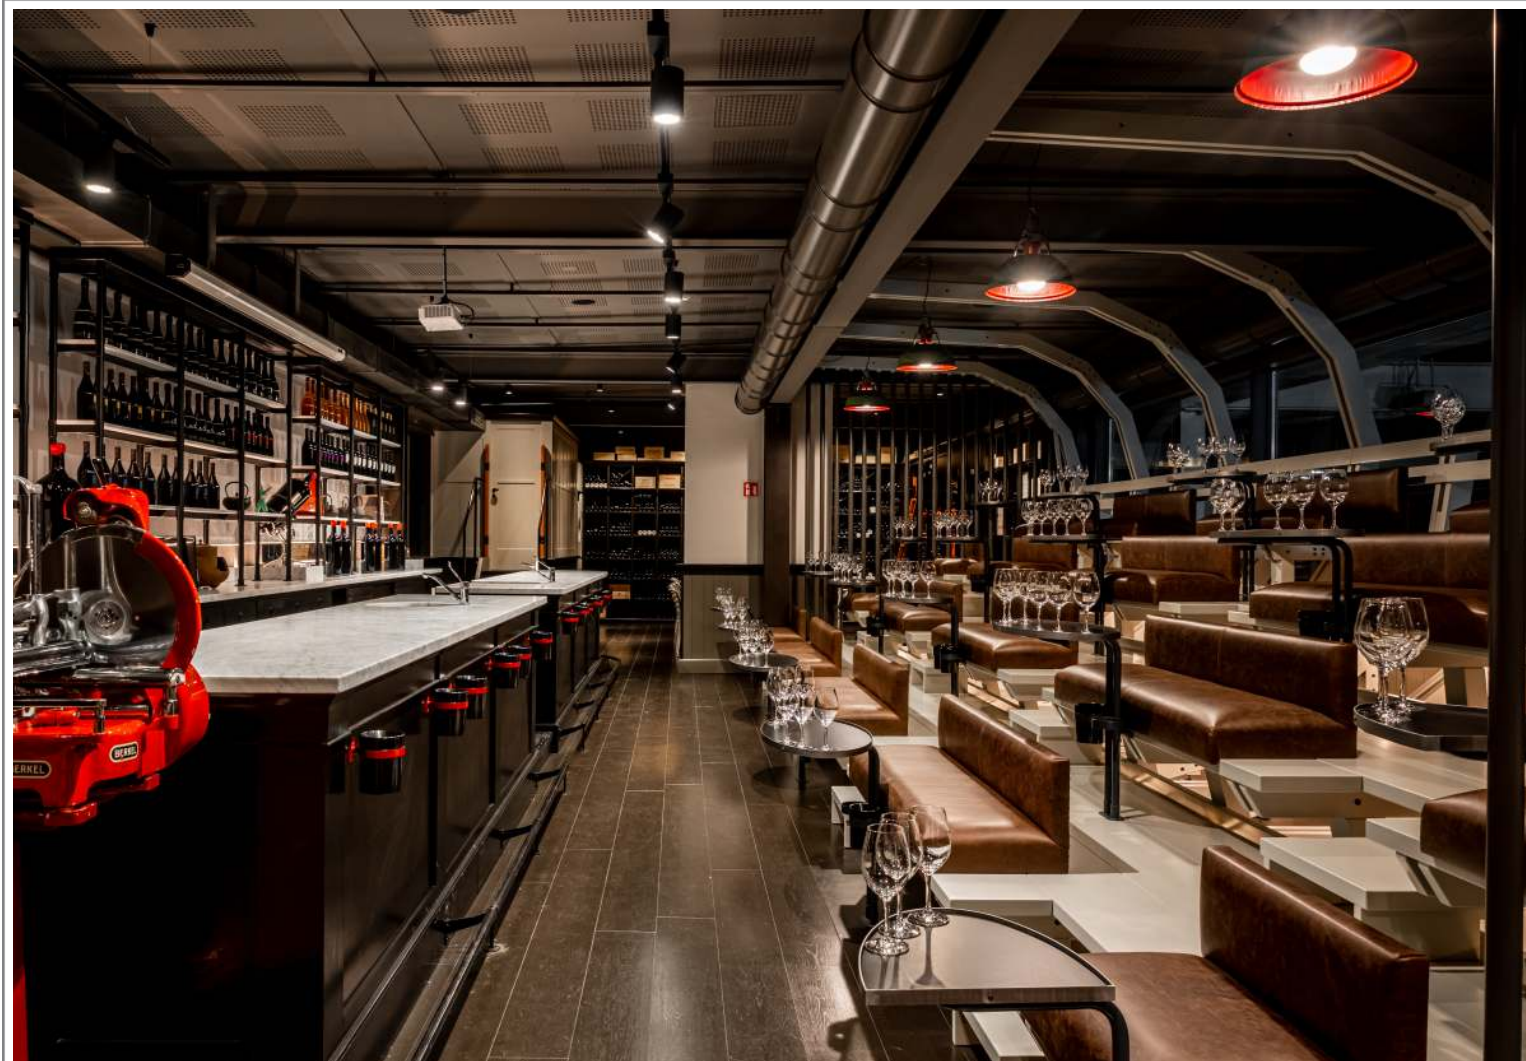

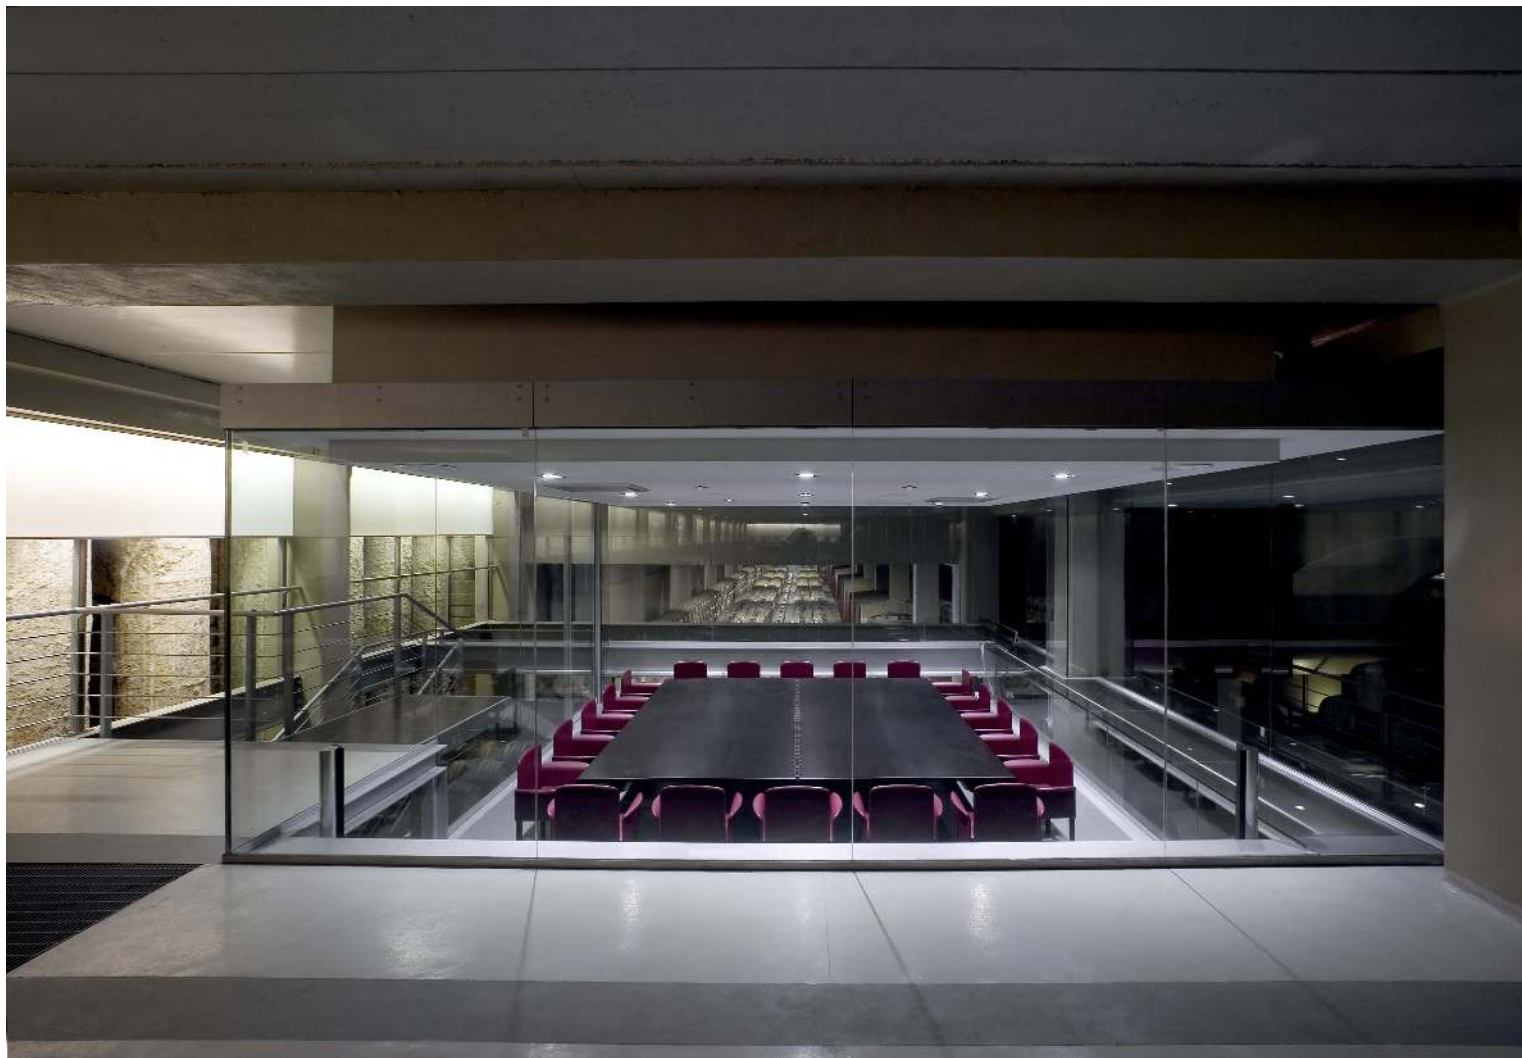

BORGIO SAN GREGORIO
